

AHMAD HMESH

Warehouse & Logistics Professional

Nehme, Mont Liban, Lebanon | +961 76 592 439 | ahmad.hmesh.04@gmail.com

PROFESSIONAL SUMMARY

Detail-oriented and self-motivated logistics and administrative professional with over 4 years of combined experience across warehouse operations, logistics coordination, and data entry. Currently a Warehouse Keeper managing ERP-based procurement and returns processing; previously supported order management, delivery coordination, and production/inventory reporting. Known for accuracy, reliability, and strong problem-solving under fast-paced conditions, with advanced Microsoft Office skills and hands-on ERP (Navision) experience.

PROFESSIONAL EXPERIENCE

Warehouse Keeper | United Company for Central Markets (UCCM), Lebanon

June 2025 - Present

- Process supplier invoices in Microsoft Navision (ERP), entering item names, descriptions, lot numbers, prices, and quantities with a high level of accuracy.
- Match delivered items against purchase orders placed by the branch manager, verifying quantities and pricing before finalizing entries.
- Manage the full returns process: processing supplier credit notes, coordinating item exchanges for damaged or expired goods, and recording supplier-provided free-goods replacements.
- Record unsellable (expired or damaged) inventory as damage and bill it as a cost to the branch, keeping clear, auditable records for reconciliation.
- Receive, inspect, and organize incoming shipments, ensuring products are stored, labeled, and arranged correctly within the warehouse.
- Monitor stock levels and maintain accurate, up-to-date inventory records to support timely reordering.
- Prepare and pack outgoing orders for dispatch, double-checking product accuracy before release.
- Coordinate with suppliers and internal departments to ensure deliveries are received and processed on schedule.
- Follow warehouse safety regulations and maintain a clean, organized, and efficient workspace.

Logistics Assistant | Global Foods, Khalde, Lebanon

Sep 2022 - Sep 2024

- Coordinated order management by liaising directly with customers and production departments to align delivery expectations.
- Monitored and followed up on delivery processes end-to-end, ensuring shipments were accurate and arrived on time.
- Maintained clear, proactive communication with stakeholders and resolved logistical issues as they arose.
- Prepared reports on delivery schedules and performance metrics, supporting ongoing process optimization.
- Assisted in tracking stock movement and supported inventory coordination between warehouse and production teams.

Data Entry Clerk | Global Foods, Khalde, Lebanon

Sep 2021 - Sep 2022

- Collected and entered production and inventory data into company systems with a strong focus on accuracy.
- Monitored and recorded the movement of raw materials and finished inventory levels on a daily basis.
- Prepared detailed production and inventory movement reports for management review.
- Ensured data accuracy and compliance with company data-handling policies, minimizing entry errors.

SKILLS

- Logistics coordination & delivery tracking
